# COMPANY DETAILS

## WORK

### Offices & workshop:

Via Enrico Mattei 13  
San Pietro Mosezzo (NO),  
Piedmont region - Italy.  
**Total Area:** 13.000 mq

Its **strategic position**, which is not far from Milan, allows O.M.V. to be one of the most well positioned companies in the Oil&Gas Sector and others. The choice of placing **workshop and offices together** gives to the company the opportunity of having the **maximum control on the production**.

## ESTABLISHMENT

**2011**

With a more 20 yrs long experience in the field.

O.M.V. is a **young and fresh company**, where **training people** collaborate alongside **experienced people**. **New ideas** are studied and developed step by step carefully in order to get the **best results in each project**. **Passion and technical skills** are the solid base of our company.

## MAIN SECTORS

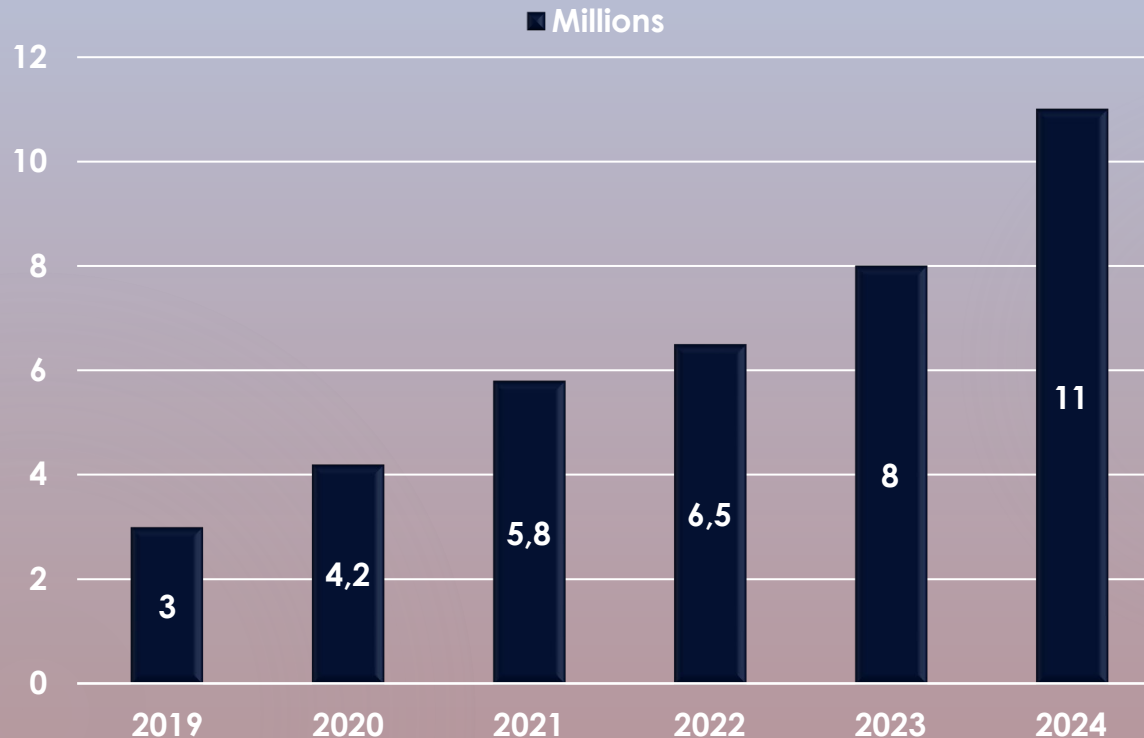

**Oil&gas and Power, Chemical, Fertilizers, Pharmaceutical, Food and more...**

We provide **customized products** according to **client's requirements**. Each **project** has its own **needs**, which are taken into account. That is why O.M.V. is a **smart company**, where **open-minded people cooperate, analyse specifications, design and manufacture** ever customized equipment.

# TURN OVER

*Monitored and Conceived Increase*

During the last four years, the O.M.V.'s **turn over** has **increased fluently** but not drastically. The **growth** of the company is **monitored** step by step and, meanwhile, **targets** are **discussed** and **defined carefully**. Each **decision** is taken after a **strong assessment** and it is **managed** with **full awareness**. **Goals** are **achieved** alongside a **handled cost control**, in order to guarantee the right **balance** between **development** and **monitored management**.

# WHO WE ARE

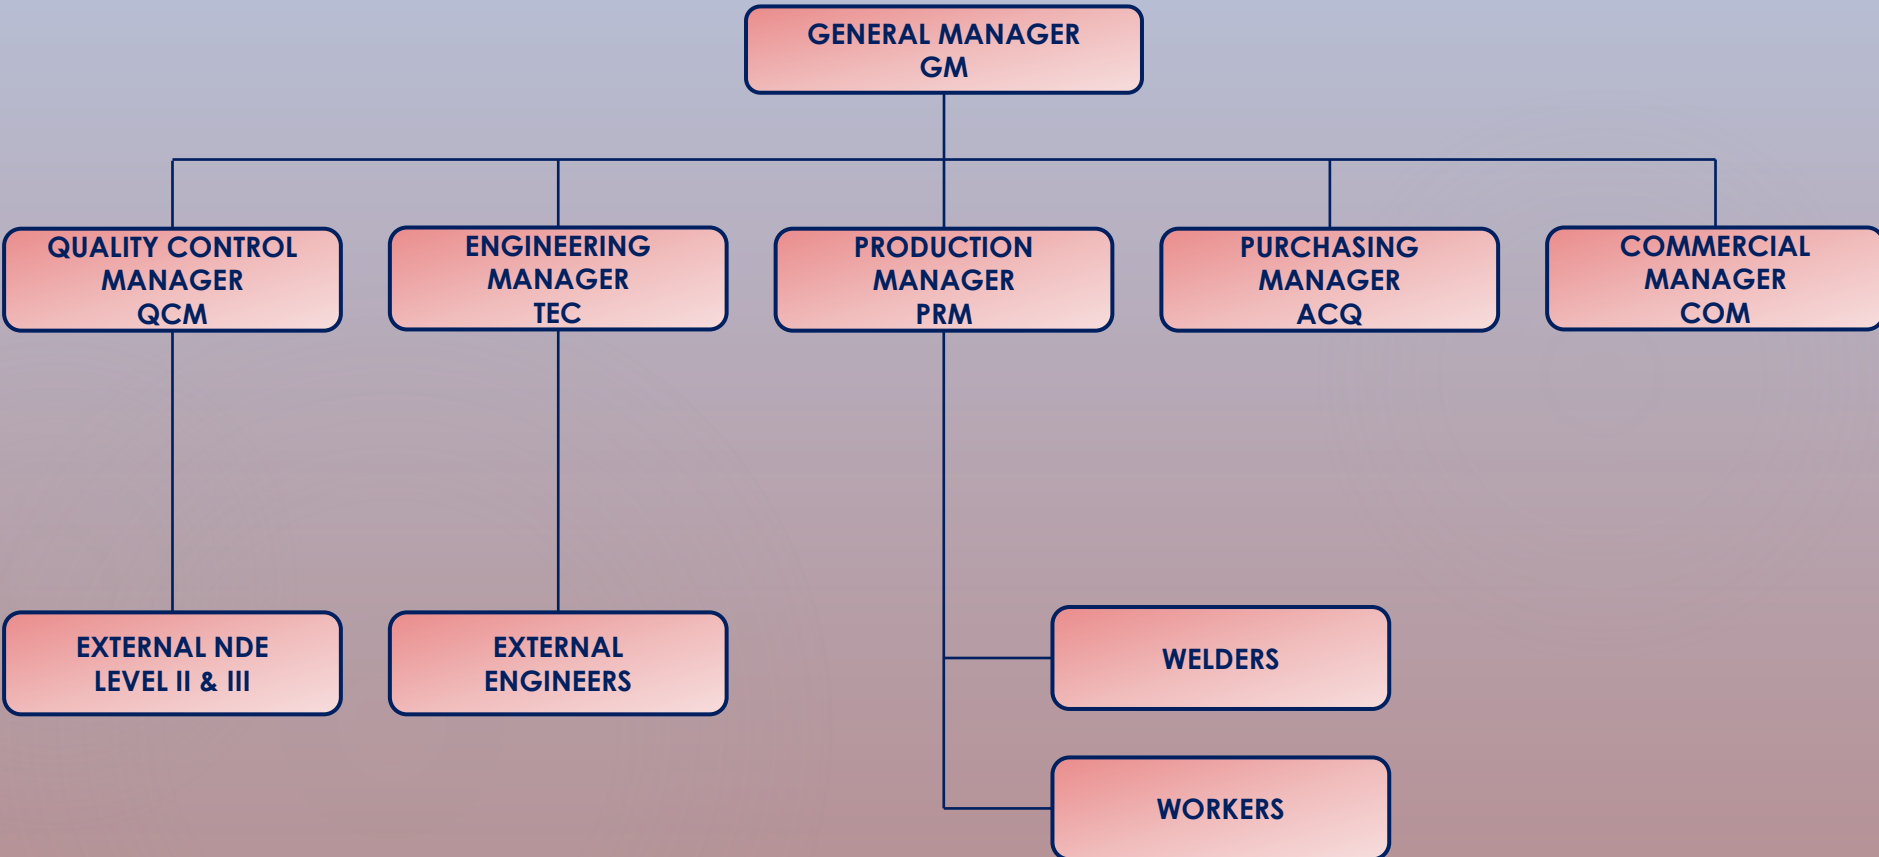

***O.M.V. is specialized in MANUFACTURING, INSTALLATION and MAINTENANCE of Static equipment and Packages.***

***As a qualified ISO 9001 manufacturer, we work according to all major standard, by taking into account all clients specifications job by job.***

***We can provide our client with full support at site, both during installation and after installation of equipment.***

***Our blue and white collars are trained people, who strengthened their skills during the years through the direct experience of specific jobs.***

# ORGANIZATION CHART

# WORKSHOP

## NEW 2025

Head Office and Production Site  
San Pietro Mosezzo

Welding materials

# PRODUCTS

*Sales Chart*

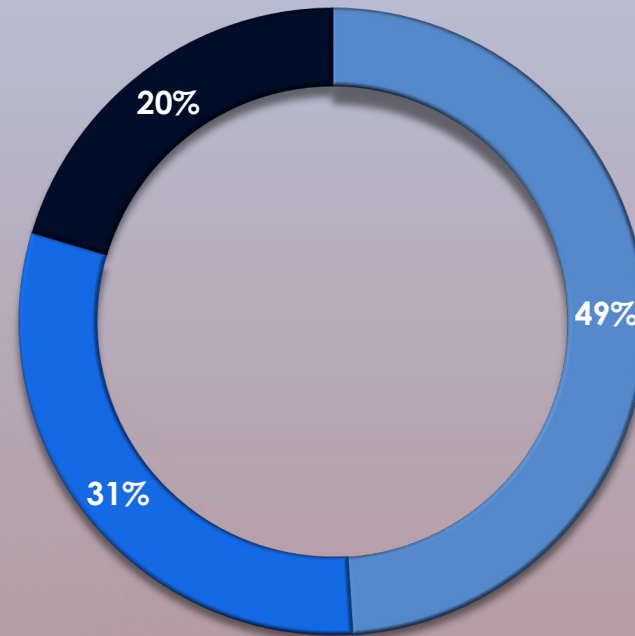

**O.M.V.'s Sales Chart** was generated according to the **last year records**, so it may vary at any time. Since we produce **customized products**, our **competitiveness** is the result of a **thorough evaluation of each job's specifications**.

Time after time we **select projects**, in which we can be more **competitive** in term of both **price** and **delivery** at a given time.

We **support our clients** after completely understanding their **needs** and our **production capacity**.

# MATERIALS

*Most used materials chart*

■ CARBON STEEL ■ STAINLESS STEEL ■ ALLOYS

Even if **black materials** are currently the most used, as per our chart, O.M.V. is also **familiar** with **SS, Alloys** and **other white materials**.

**Welders** of O.M.V. have **qualifications** for both white and black materials weldings. Our **Quality department** is strongly **knowledgeable** about **welding processes** and the emission of all concerning **documents**.

# FUTURE TARGETS

## KEEP DEVELOPING CURRENT BUSINESS RELATIONSHIPS

Our aim is to **strengthen and keep developing our consolidated business relationships in both European and non-European countries.**

We work towards **ensuring and preserving the partnership** we have built, in order to get **familiar with each of our clients' needs.**

O.M.V. acts with a view to evaluate each job's specifications, in order to **guarantee deliveries, requirements, quality, proficiency, collaboration and full support to be in line with each client / Refinery / Plant's needs.**

## BUILD NEW BUSINESS RELATIONSHIP

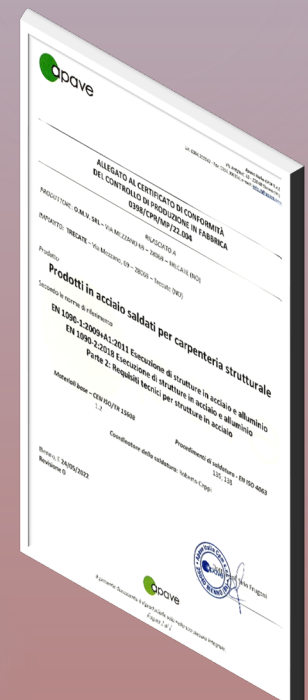

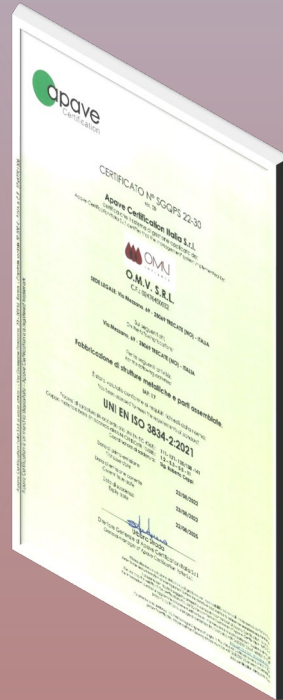

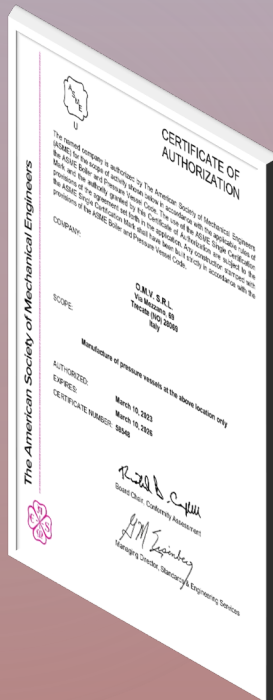

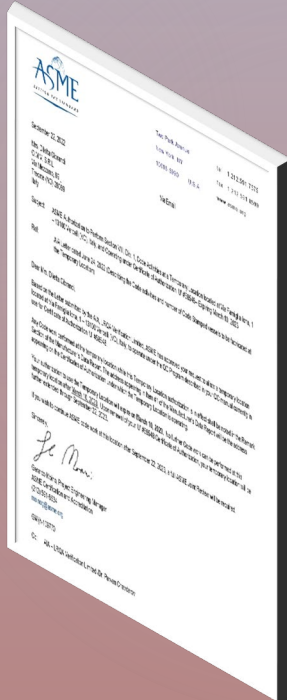

For the future we aim at **expanding our trade and building new long-term business relationship.**

We currently work in all Europe and outside Europe too. We will surely search for new European and non-European customer. We will also commit to reinforce our business relationship with **Indian markets** in order to directly **collaborate** with clients in **Food, Oil&gas, Power and Fertilizers sectors.**

We are ready to **get involved in new realities and to strengthen the old ones.**

# QUALITY

- O.M.V.'s *Quality Department* operates according to ISO 9001.
- **Other Certificates:** U-Stamp / EN1090 / 3834-2
- **Equipment** can be certified ASME U-Stamp (U1, U2) / CE / DGM (ARH), tested INAIL or PED.
- We are **familiar with** all international standards such as ASME VIII Div.1 or 2, PED 97/23/EC, B31.3, API 660/661, ISPESL-VSR, AD-2000, TEMA REGULATIONS and EN13445.
- We are **fully supported** in each project by an external and strongly qualified Technical department. However, we **intend to internalize the technical process** by setting up an internal Technical department in the near future.
